Top Engineers IIT Madras - Web Development workshop.

PROFILE

I'm a very organized student who is currently pursuing an undergraduate degree in practice of Information Technology. As a versatile person, I can quickly pick up new skills and put them to use. With an inquiring mind, I can enhance my skills and be of great use to this society. My skills as a frontend developer have begun to expand, and I'm constantly learning new things. In the near future, I'll continue to learn new things and advance myself as a frontend developer.

HARD SKILLS

HTML, CSS
Java Script
DBMS
Problem solving using Java

SOFT SKILLS

Adaptability
Time Management
Team Work
Communication Skills

INTERSHIPS

Spotknack

Frontend Developer

- Projects:
- Netflix-Clone.
 - Growth Site of Spotknack.
 - Netflix-Media center Clone.

Codsoft

Frontend Developer

- Projects:
- Landing page for Travelers.
 - Simple Calculator using Java Script.
 - Portfolio Website

HARDWARE PROJECT

Biometric Door Lock System (IOT)

The door lock system employs Arduino microcontrollers and a range of sensors, including accelerometers and GPS modules. This method assists the elderly and physically challenged individuals in unlocking doors.

Tool Used
Arduinio

EXTRACURRICULAR

Leading Flight Cadet

NCC

ACHIEVEMENTS

Completed B-Certificate (Grade A)
NCC
